Allowable Subject Matter

1. After a further search and a thorough examination of the present application and in light of the prior art made of record, claims 1-24 are found to be in condition for allowance.

Reasons for Allowance

2. The following is an Examiner's statement of reasons for the indication of allowable subject matter:

The claims are allowable over the prior art of record since the cited reference taken individually or in combination fails to particularly disclose an encoder comprising a half-pixel data generator generating half-pixel data from a wavelet domain data, the half-pixel data approximating wavelet domain data resulting from a wavelet transform of matrices that are offset relative to matrices that the wavelet transform unit transforms; and a motion estimation unit operable to search the wavelet domain data and the half-pixel data for a block best matching an object block in a frame being coded.

It is noted that the closest prior art of record (Wu US Patent no. 5949912) teaches a similar encoder, however, Lee fails to particularly teach or suggest *"a half-pixel data generator generating half-pixel data from a wavelet domain data, the half-pixel data approximating wavelet domain data resulting from a wavelet transform of matrices that are offset relative to matrices that the wavelet transform unit transforms; and a motion*

estimation unit operable to search the wavelet domain data and the half-pixel data for a block best matching an object block in a frame being coded" as specified in the claims.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Yang (US Patent no. 6125210) teaches method and apparatus for two-dimensional wavelet recomposition.

Ueda et al. (US Patent no. 5815602) teaches DCT image compression and motion compensation using the HADAMARD transform.

Any comments considered necessary by applicant must be submitted no later than the payment of issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled "Comments on Statement of Reasons for Allowance".
